NEW YORK DISCIPLES WOODING THE WEST

WOOLING THE WEST

To the Disciples' general convention recently held at Leffswille, the Disciples of Christ, of New York City, proposed a gift to them of 1850,000, to make a fund of 1500,000 with which to establish in New York City a Disciple church of commanding size and prominence. The proposal was made not so much for action as for education. It is admitted that it will take time to curry through the unusual proposition. Some declare it will not cearry even with time. Others say that if Disciples of the Middle West send money to the money center they will surpass in devotion any Christian propagandists of modern times.

The plea of the New York Disciples is that there must be created in the largest eity in America a plant of large size, centrally located. This need stands out for many reasons, they say. One is for Disciples going to New York Trem the West. Another is that three stands out for many reasons, they say. Cose is for Disciples going to New York From the West. Another is that mediane among these is the Disciples in Prominence and influence until they are known. Still another is the Disciples from turning the Bible, and its need to New York. Disciples have about a dozen churches in the Disciples have about a dozen churches in New York, including through the proposed liew plant. The latter is to be placed in a prominent location in Manhattan while many churches in Manhattan cost more than \$60,000, including the it is claimed that that some of the Disciples general societies remove from the West to New York Powle, but so far no society has yet agreed a societies remove from the West to New York whe see the strategie value of their proposition and are beginning to favor it.
